On Saturday, August 2, 2025, at approximately 1432 hours, I was dispatched to a Motor Vehicle Accident Non-Injury at Udderly Moolicious, located at 1000 Warrenton Shoppes #19, Warrenton, MO 63383. Upon arrival, I made contact with a witness, identified as;

Witness
Name: Bond, Rebecca N. W/F
DOB: 11/09/1992

Bond advised she observed a yellow in color PENSKE truck back into an unoccupied vehicle. Both vehicles involved in the collision are described as;

Suspect Vehicle
Yellow in color PENSKE MV607 26'
Plate: 3560050
VIN: 3HAEUMML3TL264208

Victim Vehicle
Black in color Nissan Rogue
Plate: EP85888
VIN: JN8BT3BB5PW218687

Bond explained she observed a male subject and a female subject inside the PENSKE MV607 at the time of the collision with the male as the driver. She stated both exited the vehicle, walked past the vehicle they struck, and walked into a business inside Warrenton Shoppes. I then made contact with the Victim in this case, identified as;

Victim
Name: Larsen, Heather J. W/F
DOB: 01/08/1975
Address: 4170 Cypress Oak Ln, Smithton, IL 62285
Phone: 618-974-0932

Larsen advised she was not in the vehicle at the time of the collision. I observed the vehicle to be pushed from the parking stall with extensive damage to the front passenger side bumper of the vehicle. After obtaining Larsen's information, I made contact with other Warrenton officers to assist in locating the two (2) subjects from the PENSKE MV607. While waiting for additional units, I observed moderate damage to the back passenger side bumper of the PENSKE MV607 and no airbags to be deployed within the vehicle.

A short time later, with help from surveillance footage, both subjects were located and were fully identified as;

Suspect/Driver
Name: Williamson, Christopher P. W/M
DOB: 03/18/1969
OLN: 940770525 (CO)
Address: 6175 Dudley St., Arvada, CO, 80004

Other/Passenger
Name: Schneider, Rewital D. W/F
DOB: 09/27/1974
OLN: 10275044179 (MD)

When I spoke with Williamson and Schneider they advised they were unaware they struck any vehicle while attempting to park at Warrenton Shoppes. However, Bond was earlier recorded as stating that when observing both Williamson and Rewital exit the PENSKE MV607 after the collision and after parking, Rewital was seen walking directly to the back of the vehicle near where the damage was located on the PENSKE MV607.

Due to the information gathered on scene, and statements from Bond, the following summons was issued to Williamson;

Summons
LEAVING THE SCENE OF A MOTOR VEHICLE ACCIDENT
310.110 ORD577.0-001Y20215499
Summons Number: 240910007

A copy of my Body Worn Camera footage, as well as any future surveillance footage gathered, will be downloaded in disc form, properly packaged and labeled, and entered into Evidence at the Warrenton Police Department.

A LETS5 Accident Report will be completed and submitted.

The summons issued will be submitted into Records for further.

There is nothing further at this time. Any additional information will be added in a supplement to this report.

Respectfully Submitted,

Ptn. Martin 216
Traffic Enforcement Division
Warrenton Police Department
